

Loddon Rivers Week

24th – 30th September

The Loddon Catchment Partnership invite you to help us enjoy the build up to **World Rivers Day** on September 30th ...

Events include:

- Working in the Blackwater River at **Lakeside Park** using woody material to deliver better habitat and flow.
- An evening's stroll listening and looking for bats at **Mill Field, Basingstoke**.
- Using trees and wood to change the flow dynamics and provide habitat at **Hawley Meadows**.
- An exhibition of the Loddon Observatory research work at **University of Reading**.
- Building floating islands at **Maiden Erlegh Lake** providing refuge for fish, water quality improvements, and nesting and resting habitat for birds.
- Channel improvements and bank protection on the **River Whitewater at Bassetts Mead**.
- Removing barriers to fish migration and habitat improvements in **Rushmoor Common**.
- An early morning bird walk in search of migrants and residents who benefit from the habitat close to the river at **Mill Field Basingstoke**.
- River Craft morning followed by a display in **Popley Fields Community Centre**.
- Guided walk along a recent river enhancement project with the **Twyford and district Angling Club at Sandford**.
